Quarantine Center

Shiroy Horseracing School

This Quarantine Center is located on the premises of the JRA Horseracing School, which is about 50km/31.1 miles from the Narita International Airport. It is about 60 minutes by the horse van from the airport. The facility accommodates a dirt training track of 1,400m (about 7 furlongs) in circumference and 17m wide.

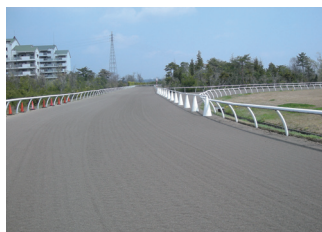

Transportation time from Shiroy to Each Racecourse

To Tokyo Racecourse:	65km/40.5 miles	about 2 hours by horse van
To Nakayama Racecourse:	10km/6.2 miles	about 30 minutes by horse van
To Chukyo Racecourse:	372km/231 miles	about 5.5 hours by horse van
To Kyoto Racecourse:	500km/312.5 miles	about 9 hours by horse van
To Hanshin Racecourse:	550km/343.5 miles	about 10 hours by horse van

Miki Horse Land Park

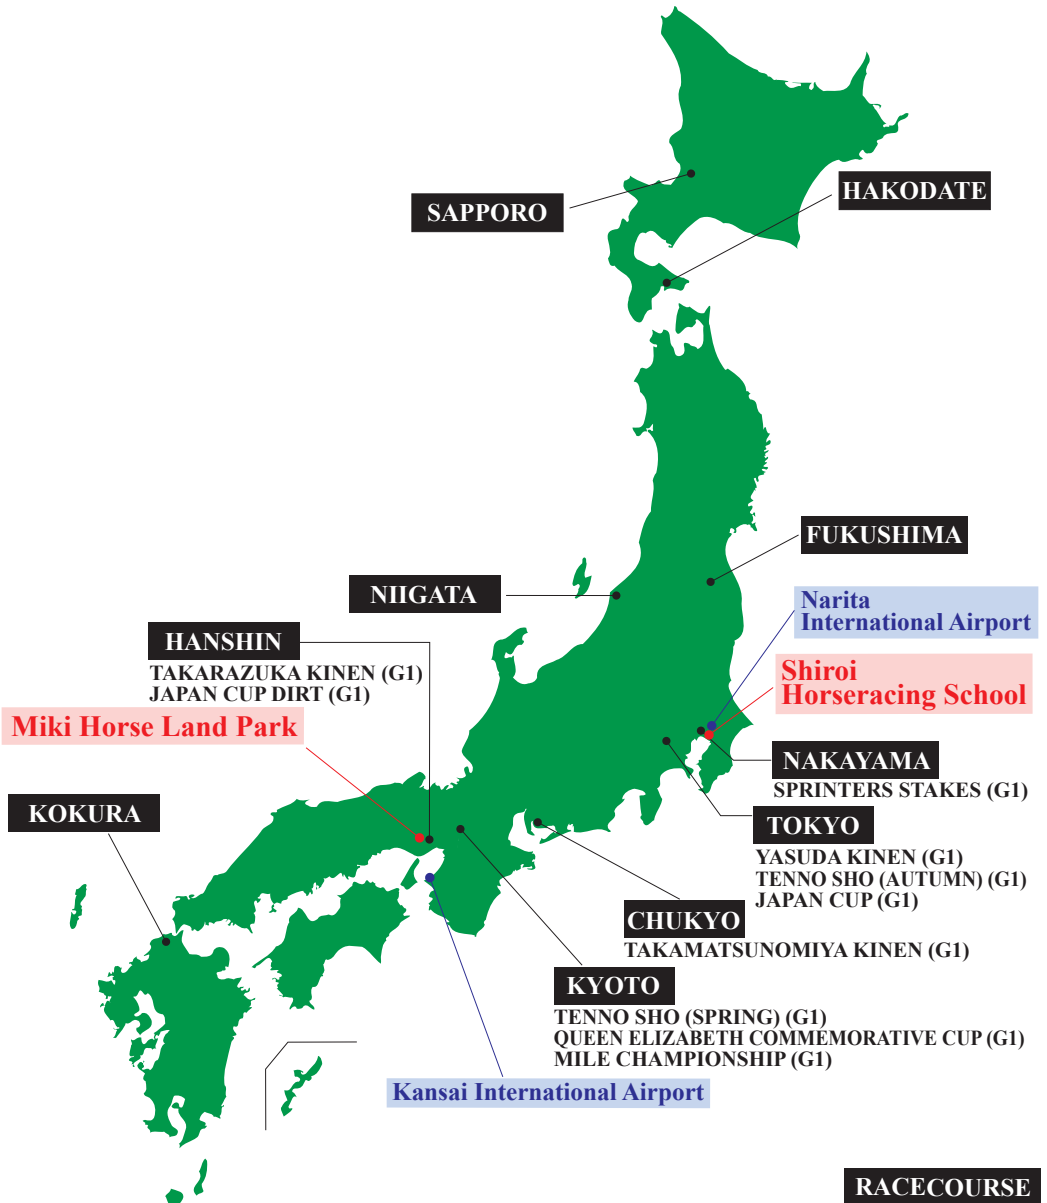

This Quarantine Center is located on the premises of Miki Horse Land Park, a public operated foundation in Hyogo Prefecture, in the western part of Japan. The facility accommodates a dirt outer track of 880m in circumference and 10m wide, and a smaller inner track of 627m in circumference and 10m wide.

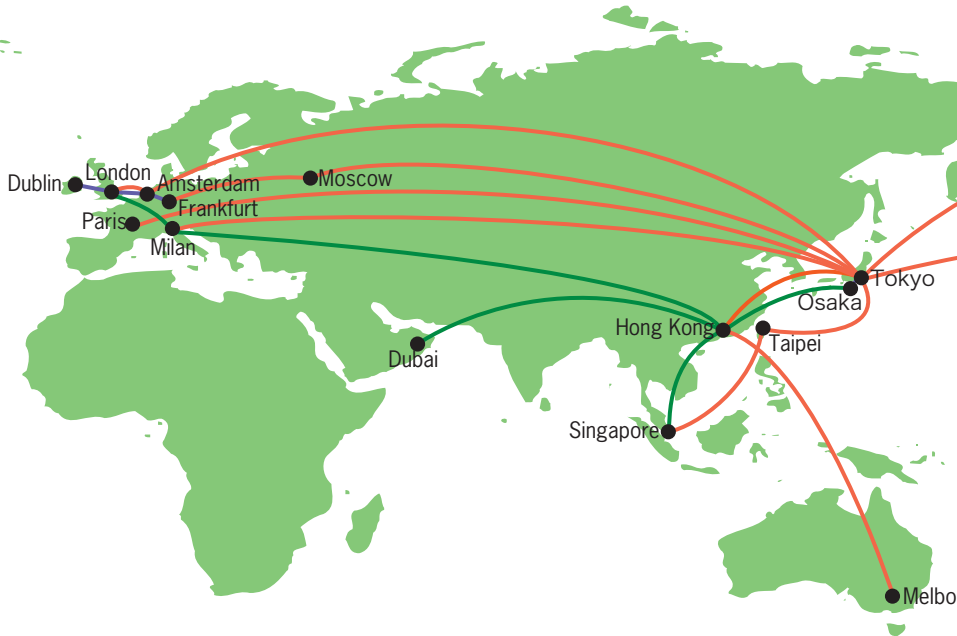

Transportation time to and from Miki

From Kansai International Airport:	150km/93.5 miles	about 2 hours by horse van
To Chukyo Racecourse:	225km/139.5 miles	about 3 hours by horse van
To Kyoto Racecourse:	90km/56.5 miles	about 1.5 hours by horse van
To Hanshin Racecourse:	50km/32.5 miles	about 1 hours by horse van

2011 Highlights

Horsemen's Information

(As of January 2012, Japan Racing Association)

SELECTION OF RUNNERS

Candidate horses for the race will be assessed on their relative merits by the JRA Selection Committee. The JRA has the sole authority and discretion in determining the selection, and the decision of the JRA shall be final. For invitational races such as Japan Cup and Japan Cup Dirt, the JRA will not only take into account the relative merits of each horse, but will seek to spread continental representation to include the main racing countries of the Americas, Europe, Australasia and Asia. Other essential factors for the selection will be the confirmation of intention to participate and the ability of the horse to meet the schedule of timing necessary for pre-race quarantine. In the event the horses selected by the JRA withdraw, the JRA reserves the right to select as a replacement an overseas reserved horse which can complete the necessary formalities and logistics in time to participate in the race. Should you wish to nominate your horse for more than one race, please indicate on the application form which race is your first choice.

Notes regarding preliminary nominations:

1. For the Japan Cup and the Japan Cup Dirt, we can only accept preliminary nominations from the horses that have run in races in countries listed in Part I of the International Cataloguing Standards.
2. For international jump races, we can only accept preliminary nominations from the horses that have run in races listed in Part IV of the International Cataloguing Standards.

CONDUCT OF RACING

1. Declaration to Run

Trainers are required to declare their horses to run at the prescribed time for each race. Declaration forms will be provided by the officials of the Racecourse to each Trainer. It is essential that any special equipment to be carried by the horse is also declared on this form. If a horse is to run with blinkers, a declaration that it is to do so must be made. When a horse has been declared to run with blinkers, they shall be worn, and when no declaration of blinkers, they must not be worn by the horse during the race. However, this does not apply in the event that the stewards of the meeting deem there is a compelling reason.

*The use of Nasal Strips is not permitted in horse racing in Japan. Some equipment may not be allowed to be used without prior permission and therefore, please contact JRA stewards in advance.

2. Scratches

Scratches in JRA racing, which are solely based on the opinion of the Owner or Trainer, for reasons of weather, or change in track conditions are not permitted on or after the deadline for declaration.

Scratches are only possible after receiving the approval of the stewards of the meeting through the submission of a document (the person-in-charge will provide assistance in drawing up the necessary document), certifying to any accident to, or disease of the horse.

3. Licensing

Visiting Trainers and Jockeys are required to attend a licensing interview with the JRA stewards for the issuance of their license. The date and time will be provided upon his/her arrival.

4. Lead Ponies

Lead ponies are not used and cannot be brought into Japan. JRA does not have gate crew situated inside the starting gate stall in order to keep the horse in check.

5. Starting Gate Loading Procedures

All JRA races use a Starting Gate System. The Starting Gate is a movable set of stalls with gates that open simultaneously at the start of the race. Prior to running in races conducted by the JRA, only horses which passed a gate test prior to the final declaration are able to run in the race.

During the gate test, the starter will check the necessary loading procedures for a minimum twice, and a horse needs to be approved by the starter as being capable of loading, standing still and leaving the stalls. Trainers are required to inform the JRA after the preliminary nomination if the horse has any unruly or specific behavior at the start. However, no special loading request will be permitted apart from request to load the horse first for efficient loading.

Loading will take place under the direction of the starter. As a general rule, horses with odd numbers in the draw will be loaded first, followed by those with even numbers, and the horse with the highest number in the draw will be loaded last no matter whether the number is odd or even. This procedure is taken for the safety of horses and people concerned, for speedy and efficient loading to start the race.

However, horses with blindfolds or those horses with bad records at loading may be loaded first no matter whether the draw is odd or even. Should there be many unruly horses taking draw position with high numbers, the starter may decide to load the horse with lowest number draw last.

6. Matters to be noted in Relation to Jockeys

a) The Jockeys to ride in races conducted by the JRA must enter and stay

in the **Jockey's Quarter at the racecourse** designated by the JRA by **9:00 PM** on the previous day of that race meeting day. (For Invitational races, the Jockeys must stay at accommodation facilities designated by the JRA from 9:00 PM on the previous day of each race.) This is done to uphold the integrity of racing.

- b) A Jockey must ride in a race carrying the officially announced weight. The weight of 1.0 kg shall be subtracted from the weight concerned as the weight of the safety vest, which is mandatory. For example, if the announced weight is 57 kg, the Jockey has to ride the horse at the weight of 58.0 kg.
- c) The JRA may require the random selection of several Jockeys on race day to take and pass a urine test for prohibited substances (stimulant drugs, marijuana, narcotics, and diuretics).
- d) A whip which is 77 cm (approximately 30 inches) or longer is prohibited from being used in races.
- e) From the standpoint of horse welfare and safety of racing, the use of the whip in the following manner may be liable to punishment:
 - Using the whip to the extent of causing injury.
 - Using the whip with the arm above shoulder height.
 - Using the whip with excessive force.
 - Using the whip on a horse which is showing no response.
 - The continued use of the whip on a horse after its chance of winning or being placed is clearly gone.
 - The unnecessary use of the whip on a horse that has clearly won its race or has obtained its maximum placing.
 - Using the whip on a horse which is past the winning post.
 - Using the whip on the flank of the horse.
 - Using the whip with excessive frequency.
 - Using the whip on any part of the horse's head or in the vicinity of the head.
 - The use of the whip in front of the saddle while the whip is held in the forehand position, unless exceptional circumstances prevail.
- f) No one under 15 years of age is permitted to ride as a Jockey in JRA races.
- g) Should an incident of interference which affects the result of the race occur during race, the offending horse is disqualified or demoted behind the offended horse, depending on the finishing order of the offender and the victimized horse.
- h) We strongly recommend that Jockeys subscribe to casualty compensation before they leave their home country, which will provide them with coverage while in Japan.

7. Other Pertinent Information

- a) When a horse bleeds in a race, the horse is suspended from racing for

one month for the first offence.

OWNERSHIP

1. Registration for Ownership and Colors

The application fee is **JPY10,000** (about US\$125) for Owner Registration (both Private and Company Owner applicants) and **JPY3,000** (about US\$37) for Registration of Racing Colors. All funds required in this application process must be submitted in Japanese Yen.

*Further, the above fee is necessary only for the Owners making this registration for the first time after January 1, 1999. Once registered, this registration is valid throughout the period the Owner is registered as a JRA Owner, and the payment is necessary only once.

2. Owner Registration Tax

Accompanied with Owner Registration, **JPY90,000** (about US\$1,125) must be paid to the Japanese Government in accordance with the Registration and License Tax Act. This amount must be remitted to the bank account designated by JRA.

3. Ownership Change

The Rules of Racing under which the JRA conducts Thoroughbred Racing only allows the name of **ONE** Owner per horse. In case of a change in the Ownership of a participating horse, the new and old Owner must report to the JRA as immediately as possible one Owner's name under which the horse is to be raced, accompanied by the documentary evidence such as an Ownership Registration Certificate issued by the horse racing authority of the country represented, or the sales contract. In a case where documentary proof of the change of Ownership is the sales contract, the new Owner must hold a current Ownership Registration with the horse racing authority of the country represented, or Ownership Registration with the JRA. After a horse is drawn into a race, there shall be no transfer nor assignment of any Ownership interest in such horse until after the race, or until such horse is scratched from the race, if sooner.

4. Declaration Fee

Declaration Fee must be remitted to the bank account designated by JRA. It will NOT be refunded after the horse is declared to run.

For G1 races (excluding 2yo races)	:	JPY 300,000
G1 races (for 2yo) and		
G2 races (excluding 2yo races)	:	JPY 100,000
G2 races (for 2yo), G3 races	:	JPY 50,000
Other Races	:	JPY 30,000

5. Payment

(1) Application Fee for Ownership	JPY	10,000
(2) Application Fee for Colors	JPY	3,000
(3) Owner Registration Tax	JPY	90,000
(4) Declaration Fee (for 3yo+ G1 races)	JPY	300,000

**(1), (2), and (3) are necessary only for the Owners making registration for the first time after 1st January 1999. Once registered, this registration is valid throughout the period the Owner is registered as a JRA Owner, and the payment is necessary only once.*

Payment of (1)~(4) must be remitted by noon, Friday, one week prior to the race day, Japanese time. Please be sure that payment is made in Japanese yen. All bank charges and commissions (including paying bank charges) are to be paid by the owner.

The designated bank details are as follows:

Account Holder: JAPAN RACING ASSOCIATION

Account Number: 0005-001-7834038

Bank: The Bank of Tokyo-Mitsubishi UFJ, Ltd.
Head Office, Tokyo, Japan

Bank Address: 2-7-1 Marunouchi, Chiyoda-ku, Tokyo, Japan

Swift Code: BOTKJPJT

Please fill in the name of your horse and race on the message section of the application for foreign remittance transactions so that the JRA can confirm from whom the bank transfer was sent.

PRIZE MONEY

All Prize Money will be wholly awarded to the single nominated Owner, who is registered with the JRA, for participating horses. Any split in prize money that reflects multiple Ownership is a matter of private contract or agreement between those Owners. The JRA also does not deduct any percentages for Trainer, Jockey and stable staff from prize money.

EXPENDITURES

As a general rule, Owners of participating horses will be entirely responsible for all travel, accommodation, quarantine, isolation and all incidental costs associated with themselves, their horses, Trainers, Jockeys, and stable staff. However, the JRA will provide the following expenses:

1. Van transportation expenses between the International Airport and the Quarantine Center and the Racecourses in Japan.
2. Stall fees at the Quarantine Center and at the Racecourse.

The JRA may provide travel subsidies for particular selected overseas horses for certain grade 1 races and travel incentives for invitational races such as the Japan Cup and the Japan Cup Dirt in accordance with standard procedure for JRA International Races. Please contact our Representative Offices for details.

TAXATION

a) Income Tax and Corporation Tax:

(for the money and prizes earned in Japan)

1. Owners are not obliged to pay tax in Japan. However, an Owner who holds permanent establishment (i.e., office) in Japan must pay tax as a self-assessment.
2. Trainers are not obliged to pay tax in Japan.
3. For Jockey, Exercise Rider and Groom, twenty percent (20%) tax will be deducted at the source on money and prizes earned by the individual.

b) Consumption Tax:

Any person who had taxable earnings exceeding JPY10 million in Japan during 2010 is obliged to pay by self-assessment a consumption tax of five percent (5%) on the money and prizes of 2012.

*It is each individual's personal responsibility to file tax as appropriate to their status.

“Customs Duty”

The law of Japan requires that a customs duty of JPY3,400,000 (about US\$42,500) is to be levied per horse for any racehorses temporarily imported within the borders of Japan. This customs duty is waived for horses that are planning to race in Japan, under the precondition that the horse is again exported as promptly as possible after the race.

Owners must deposit the above amount of money as bond with the customs house during the period of stay in Japan. This money will be returned when the horse is again exported from Japan following the race.

The Owner must also abide by the following additional requirements:

- After the race, the horse must not be used for another purpose in Japan.
- After the export quarantine, the horse must depart from Japan as promptly as possible.

FEED, BEDDING AND WATER

1. Feed and Bedding

As a general rule, feed, feed additives and bedding are provided by the JRA. Feed, feed additives and bedding other than those provided by the JRA are discouraged while in Japan. Feed and bedding used during airplane travel must be disposed of upon arrival at the airport in Japan. Any other feed, etc., brought into the country must be kept in the JRA's custody until after the race.

2. Precautions on Quarantine

If you wish to import feed, or feed additives for your horse, you must obtain a phytosanitary certificate issued by the Agricultural Department of your country. In addition, upon arrival in Japan, feed, or feed additives, must be cleared by the Plant and Animal Quarantine Department and Customs, and pass Physico-chemical tests conducted by the Laboratory of Racing Chemistry. It takes about 15 days to complete these procedures.

Therefore, if your horse must have feed, or feed additives that cannot be replaced by the JRA provisions mentioned in "List of Feed", please contact the JRA Representative Office at least 20 days prior to your horse's arrival. Please note that if you fail to notify our office 20 days in advance, you may not be able to use your feed or feed additives immediately after arrival.

3. Water

All JRA facilities are furnished with complete water and sewerage service. The water from the waterworks is potable water, which more than satisfies the standards prescribed by law.

The quality of water is soft compared to North American and European countries. According to the Government officials who tested the quality, drinking water in Japan ranks top-class in the world.

HORSESHOES

1. Type of Shoes

Please note that shoes for racing must be 9 millimeters or less in thickness, 22 millimeters or less in width and 125 grams or less in weight. The JRA will check whether the shoes which are brought are permissible or not, after coming to Japan. The Trainer is responsible for ensuring that his/her horse is shod in accordance with the requirements of this instruction.

The following shoes are **not permitted** during a race:

- a) Shoes whose calk is higher than 2 millimeters (2 millimeters is permitted) from the surface that touch the ground, and shoes whose calk on one end is sharp (i.e. Toe grabs)
- b) If there is a difference in thickness between the inner line and the outer line which is divided by the center groove, and whose surface touches the ground unevenly, the difference must be 3 millimeters or less (i.e. Rim shoes)
- c) Shoes that may pose a danger to other horses such as those with protruding object(s) attached to the bottom of the shoe, typically crampons and notches (i.e. Blocks and sticker heels)
- d) Shoes whose surface touch the ground unevenly around the circle, and are not on the same arc (i.e. Bent shoes)

2. Nails and Nailing

A nail with a sharp head must not be used for shoeing. Nail heads must not protrude more than necessary (protrusion must be 2 millimeters or less).

3. Shoeing

Farriers of the JRA will be available for shoeing by request. The JRA will recommend bringing extra shoes and nails of own, in case our stock shouldn't meet the request. Please contact the JRA Veterinary Division or respective JRA Representative Offices for further information.

MEDICATION AND DRUGS

1. Drug Control Regulation

In Japan, entering a horse to race under the influence of drugs which temporarily stimulate or depress race performances (hereinafter referred to as prohibited drugs) is prohibited strictly by Horse Racing Law. Also, the usage of certain drugs is restricted from the standpoint of horse welfare and injury prevention (hereinafter referred to as restricted drugs) by the JRA.

Besides those prescribed in these regulations, all matters concerning the control of drug administration to racehorses shall be prescribed by the JRA Veterinary Officer. Please check with the JRA beforehand when considering any drug administration to horses scheduled to race in JRA races.

A) PROHIBITED DRUGS

- a) **Prohibited drugs** (listed below) are defined as "**substances which temporarily stimulate or depress race performance**". Such **prohibited drugs** (except for anabolic steroids) must not be administered to any horse nominated to start, and in the event a prohibited drug is administered, the horse concerned cannot race for a period of 10 days. Please be careful of such medications as "**Bute**" (40 Phenylbutazone) and "**Lasix**" (46 Furosemide) which are also included on the list.
- b) Trainers are advised that anabolic steroids may be detected for approximately two months after administration, and they will be held responsible for ensuring that their horses are free of anabolic steroids prior to departure for Japan. The JRA may conduct a physico-chemical test to confirm that a participating horse is free of anabolic steroids after arriving in Japan.
- c) The use of any unlisted substances with the purpose of, or lead to temporarily stimulating or depressing race performance is prohibited likewise.

Please refer to Article 31 of the Horse Racing Law and Paragraphs 132-136 of the JRA Rules of Racing

(<http://japanracing.jp/en/information/jra-rules/rules-racing.html#c9>).

LIST OF PROHIBITED DRUGS AND SUBSTANCES

(As of January 2012)

1	Atropine	2	Alprenolol
3	Amphetamine	4	Ipratropium
5	Ethanol	6	Ephedrine
7	Oxyethyltheophylline	8	Oxypropyltheophylline
9	10-Oxocamphor	10	Oxprenolol
11	Caffeine	12	Camphor
13	Clenbuterol	14	Chlorpromazine
15	Chlorpromazinesulfoxide	16	Cocaine
17	Salbutamol	18	Dihydroxypropyltheophylline
19	Dibucaine	20	Cyproheptadine
21	Dimorpholamine	22	Scopolamine
23	Stanozolol	24	Strychnine
25	Theophylline	26	Theobromine
27	Tetracaine	28	Terbutaline
29	Trans- π -Oxocamphor	30	Trenbolone
31	Nandrolone	32	Nikethamide
33	Nicotine	34	Noscapine
35	Barbital	36	Barbiturates
37	Pipradrol	38	Phenacetine
39	Phenylpyrazolone Derivative	40	Phenylbutazone
41	Furazabol	42	Fluoxymesterone
43	Brucine	44	Flufenamicacid
45	Procaine	46	Furosemide
47	Propranolol	48	Promazine
49	Pemoline	50	Benzodiazepine Derivative
51	Pentazocine	52	Pentetrazol
53	Boldenone	54	Methapryrilene
55	Methamphetamine	56	Methylephedrine
57	17- α -methylsteroids	58	Methylphenidate
59	Metenolone	60	Methoxyphenamine
61	Metoprolol	62	Mefenamicacid
63	Morphine	64	Lidocaine
65	Any other substance which contains, or extricates any one of the above mentioned substances		

B) RESTRICTED DRUGS

- a) Horses must not race under the influence of **restricted drugs** (listed below), which are defined as "**drugs to be restricted from the standpoint of horse welfare and injury prevention**".
- b) The JRA will recommend withdrawal times for **such restricted drugs**. Please contact the JRA Veterinary Division or respective JRA Representative Offices for specific information.

Please refer to Article 7, 12, and Separate Table (2) of the Matters to be Instructed by Veterinary Officers. (<http://japanracing.jp/en/information/jra-rules/veterinary.html>)

LIST OF RESTRICTED DRUGS

(As of January 2012)

- | |
|--|
| <p>1 Glucocorticosteroids (Cortisone, Dexamethasone, Triamcinolone, Triamcinolone Acetonide, Hydrocortisone, Fludrocortisone, Prednisolone, Betamethasone, Methylprednisolone, and other substances with similar chemical structure or similar biological effect(s))</p> <p>2 Non-Steroidal Anti-Inflammatory Drugs (Aspirin, Acetaminophen, Acemetacin, Ampiroxicam, Amfenac, isopropylantipyrene, Ibuprofen, Indometacin, Ethenzamide, Etodolac, Etoricoxib, Epirizole, Emorfazone, Eltenac, Oxaprozin, Oxyphenbutazone, Carprofen, Glycyrrhizinate, Ketophenylbutazone, Ketoprofen, Ketorolac, Salicylamide, Sodium Salicylate, Methyl Salicylate, Zaltoprofen, Diclofenac, Dimetotiazine, Sulindac, Celecoxib, Tiaprofenic acid, Tiamamide, Tenoxicam, Tepoxalin, Deracoxib, Tolfenamic acid, Nabumetone, Naproxen, Valdecoxib, Piroxicam, Firocoxib, Felbinac, Bucolome, Pranoprofen, Flunixin, Flurbiprofen, Proglumetacin, Vedaprofen, Meclofenamic acid, Meloxicam, Mofezolac, Loxoprofen, Lornoxicam, Neurotropin, and other substances with similar chemical structure or similar biological effect(s))</p> |
|--|

2. Veterinary Instructions regarding medical treatment

- a) No treatment can be given to a horse from the day before the race.
- b) Prior consultation with the veterinary officer is necessary in case a drug or medication is to be administered to a horse scheduled to run, or feed additives other than those provided by the JRA are to be given.
- c) No one except the veterinary officers of the JRA or those who have received the approval from the JRA can diagnose or give treatment to the horse.

3. Medication and Drugs Brought into Japan

- a) Medication and drugs brought into Japan by persons involved with scheduled runners can not be used at JRA premises, unless tested beforehand at the Laboratory of Racing Chemistry. This includes soap, shampoo, skin protection cream, hoof oil and other substances used for the horse's care. Therefore, any such untested medication and drugs will be kept in the JRA's custody until after the race.
- b) A variety of products, such as hot and cold compress medications (poultice), massage medication, shampoo, and nutrient additives that are comparatively in wide use in foreign countries are available. This includes soap, shampoo, skin protection cream and other substances used for the horse's care. A list of these supplies is available at each JRA Representative Office.

4. Physico-Chemical Test after Race

Physico-chemical tests are conducted on horses that finish first through third in the race, and any horse designated by the stewards of the meeting, under the Rules of Racing of the JRA. The horses concerned must submit to sample collecting after the race. The collected samples will be divided into two samples, and Physico-chemical test will be conducted at the Laboratory

of Racing Chemistry, on sample A. Should the existence of a prohibited drug or medication be detected, sample B will then be tested automatically at the same Laboratory, in the presence of the non-partisan designated witnesses, who have knowledge of the field of Physico-chemical testing. No notice will be given to the connections of the horse at this time. No person other than these witnesses can be present at the retest procedure. If the presence of the same prohibited drugs or medication is detected in both samples A and B, it will be considered as a violation of the drug and medical regulations. The horse concerned will be disqualified and suspended from running in a race for a fixed period. The connections of the horse will not be entitled to receive any prizes, or prize money. The horse connections concerned may be charged under Article 31 of the Horse Racing Law and will be penalized in accordance to Paragraphs 123, 131, 138, and 140 of the JRA Rules of Racing.

VACCINATION

Vaccination requisite is based on the animal health requirement agreed upon between the government authorities of each country and the Japanese Government. Please ask your country's government for details. Aside from the requirement established by government, the JRA recommends Japanese Encephalitis virus vaccination as described below.

1. Japanese Encephalitis Virus Vaccination

The JRA strongly recommends that the foreign trained horses which participate in the races held in our jurisdiction during July to October to be vaccinated against Japanese Encephalitis (**JE**) virus with an acceptable inactivated vaccine before coming to Japan. The JRA does not take any responsibility for any horses coming to Japan during this period without being inoculated with the necessary vaccine protection from JE. Although it is also possible for the JRA to provide the vaccine required for inoculation prior to the horse coming to Japan, owners should ask the respective authorities in their own country about import procedures and permission for use of the vaccine overseas. The reason the JRA strongly recommends vaccination of JE is as follows:

During the period of July to October of each year, JE is prevalent in the natural environment in Japan. This is primarily an interaction between infected mosquitoes (*Culex Tritaeniorhynchus*) and swine. JE virus infection has been designated as an infectious disease under the Domestic Animal Infectious Diseases Control Law in Japan. Any horse becoming infected will require isolation. It is therefore conceivable that even uninfected horses might be precluded from subsequent domestic transportation and this would have a major effect on our race meetings in Japan. Consequently, to preclude the spread of the infection to horses, all race horses in Japan are required to be vaccinated with two doses of 1ml each, given from a two week

to a one month interval between May and June annually, prior to the prevalent period of the infection. As a result of this preventative program, we have not had a case of JE observed in a race horse over the last twenty years. Therefore, the JRA requests that any person desiring to send horses to Japan for any races which are to be held during July to October should have the horses vaccinated against JE virus with an inactivated vaccine prior to export to Japan. The JRA will provide as much assistance as possible and will be pleased to respond to any inquiries you might have on this topic. If you require further information on vaccination against JE virus in your country and re-entry procedures, please inquire in advance to your respective Government offices.

*Export quarantine requirements prior to the departure from the country, should also be ascertained in advance from your respective Government Departments and you should follow their instructions for the necessary vaccinations and tests. Since certain countries require particular re-entry procedures, please ascertain these also and institute the necessary requirements before your horse departs from the originating country.

☆ **Caution** ☆

It is important that all vaccinations a horse has been administered must be recorded in its passport. The JRA's veterinarian judges whether a horse is vaccinated or not only through the description in the passport. Therefore, please ensure that all the records are completely written in the passport especially immediately after vaccination.

QUARANTINE PROCEDURES

The Animal Health Requirements may have changed. Please ask your country's government for details.

All quarantine procedures are based on the special animal health protocols agreed upon between the government authorities of each country and the Japanese Government. Import is thereby under the conditions that the horse will be temporarily imported to Japan to run in a race and will immediately undergo export quarantine after the race.

Therefore, permanent import of the horse, for such reasons as selling the horse in Japan, will not be allowed.

The following quarantine procedures will take place:

- a) Upon arrival at the international airport, horses must be immediately transported to the Quarantine Center. Japanese Government quarantine officers carry out individual quarantine procedures for the participating horses. However, horses arriving on the same plane will normally be tested together.

- b) The import quarantine period is a minimum of **seven days** (arrival and departure date to and from the quarantine is included in the quarantine period). Transportation to the Racecourse is allowed only after the completion of import quarantine. It is necessary to clear all the tests that are required by the Japanese Government during the quarantine period.

1 st day	2 nd day	3 rd Day	4 th day	5 th Day	6 th day	7 th day
Arrival In Japan	← QUARANTINE PERIOD →					Move to Racecourse

- c) During the quarantine period, horses must follow the training timetable designated by the quarantine officer.
- d) During the quarantine period, the regulation prohibits Grooms and Exercise Riders from leaving the Quarantine Center.
- e) On the last day of the quarantine period, a test for equine influenza will be conducted by an official JRA veterinarian in addition to a Japanese Government test.
- f) After being cleared from quarantine, necessary follow up measures will be instituted at the racecourse for epidemic prevention.
- g) Under the quarantine conditions applied to foreign trained horses, the Government mandates that the period of stay of a horse in Japan shall be 60 days or less (from the day of release from import quarantine up to the day before export quarantine).
- h) The export quarantine will be conducted at the racecourse. The period is one day or less. However, this is not applicable in cases where the Government of the importing country (e.g. Australia) requires more days of the quarantine period than that which is prescribed by the Japanese Government.

Quarantine Centers

Shiroy Quarantine Center: Located in an area of the **JRA Horse Racing School** premises, about one hour (by van) from the Narita International Airport. The facility has a dirt track of **1,400 meters** in circumference, which is available for scheduled training.

Miki Horse Land Park: Quarantine Center located in the **Miki Horse Land Park**, which is a public operated foundation, located about two hours (by van) from the Kansai International Airport. It has a track of **880 meters** in circumference and 10 meters wide, and a smaller inner track of 627 meters in circumference and 10 meters wide.

* The currency exchange used in this book is US\$1.00=JPY80.
